

**ACTION TAKEN:**

**Motion:** Approve the proposal to create a joint graduate degree in Juris Doctor/Master of Public Policy

**Vote:** Approved unanimously

**Action:** Inform the S.J. Quinney College of Law, the College of Social and Behavioral Science and the Master of Public Policy Program of the Council's decision to approve the creation of a joint graduate degree in Juris Doctor/Master of Public Policy.

3. **Proposal to Create a Master of Science Degree in International Affairs and Global Enterprise**

Stephen Reynolds, Associate Dean of the College of Social and Behavioral Science, and David Patton, Director of the Center for Public Policy and Administration, presented the proposal to create a Master of Science degree in International Affairs and Global Enterprise.

With international employment numbers on the rise, there is an unfilled niche for student education, addressing international affairs and global enterprise. Significantly, the proposed degree is very different from the scope covered by an international business degree. Through the combined efforts of the College of Law, the College of Social and Behavioral Science, and the School of Business, the focus will be providing educational training for students going into private industry, rather than the diplomatic corps.

The Graduate Council asked what is currently available that would satisfy a similar focus of study. Students can draw from international business, political science, cultural anthropology, and international business law.

Balance between the three colleges will be achieved by having a required capstone class, in addition to a minimum requirement of drawing from three different departments for electives. The capstone class will be team-taught to further ensure balance. An admitting committee will be comprised of individuals from all three departments.

**ACTION TAKEN:**

**Motion:** Approve the proposal to create a Master of Science Degree in International Affairs and Global Enterprise

**Vote:** Approved unanimously

**Action:** Inform the S.J. Quinney College of Law, the College of Social and Behavioral Science and the Master of Public Policy Program of the Council's decision to approve the creation of the Master of Science Degree in International Affairs and Global Enterprise

4. **Review of the Department of Physics, College of Science**

Robert Young, Ad Hoc Committee Chair presented the report for the Department of Physics.

The commendations were read, noting the ongoing efforts in improving junior faculty retention and recruiting female senior faculty. Undergraduate enrollment is among the top 5 highest enrollments nationally. The Council advised that commendations 4 & 5 and 6 & 9 be combined, as well as clarifying item 9 to reflect that the undergraduate enrollment number places it in the top five highest enrollments in the country.

The recommendations were read, noting that a large percentage of faculty lines are open (1). Recommendation (2) addresses the funding and hiring inequities between the Department of Physics and the College of Science. Recommendations 5 & 6 and 2 & 8 should be combined.

**ACTION TAKEN:**

**Motion:** Approve the proposal as amended

**Vote:** Approved unanimously

**Action:** Upon receipt of the amended report, the report will be discussed at the wrap-up meeting (in attendance: Senior Vice President for Academic Affairs; Dean of the College of Science; Chair of the Department of Physics; and the Dean and Associate Dean of the Graduate School as facilitators). Following the wrap-up meeting, a Memorandum of Understanding will be prepared by the Associate Dean of the Graduate School. Both the report and the Memorandum of Understanding will be sent to the Senior Vice President for Academic Affairs for transmittal to the Academic Senate.

5. **Review of the Department of Biomedical Informatics, School of Medicine**

Ann Marie Breznay, Ad Hoc Committee member, presented the report for the Department of Biomedical Informatics.

The commendations were read, and there was no discussion or clarification required.

The recommendations were read, with (1) generating discussion as to the phrase “gain support,” which needs definition as to where the burden lies – the Department or College. Item (1) will be reworked to include the external review corresponding comment. Recommendations 3 & 4 and 6 & 7 should be combined.

**ACTION TAKEN:**

**Motion:** Approve the review as amended

**Vote:** Approved unanimously

**Action:** Upon receipt of the amended report, the report will be discussed at the wrap-up meeting (in attendance: Senior Vice President for Health Sciences; Chair of the Department of Biomedical Informatics, and the Dean and Associate Dean of the Graduate School as facilitators). Following the wrap-up meeting, a Memorandum of Understanding will be prepared by the Associate Dean of the Graduate School. Both the report and the Memorandum of Understanding will be sent to the Senior Vice President of Health Sciences for transmittal to the Academic Senate.
